Dear Sir or Madam:

This office is investigating water releases and/or interruptions through the Red Bridge electric power dam on the Chicopee River in Wilbraham, Massachusetts. The time frame for our search is general but, to the extent it facilitates your search and production, we are specifically interested in the time period between June 30, 2016 and June 30, 2019. Documents prior to that period are of interest only if there are no responsive documents for that specified time period.

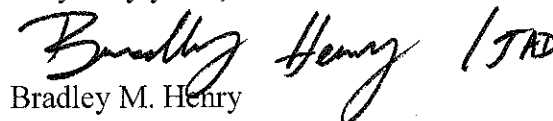

In compliance with the Freedom of Information Act, 5 U.S.C. § 552, as amended, we respectfully request that you please forward to our office a copy of any and all documents that constitute, reflect or relate to:

1. standards, restrictions, guidelines, agreements, consent decrees or regulations (hereinafter "standards") that govern, set, establish or control the opening and/or closing of the water current through the Red Bridge Project powerhouse dam (for reference, identified in the Low Impact Hydropower Institute's Red Bridge Project, FERC No. 10676 (March 27, 2017 – March 26, 2022, <https://lowimpacthydro.org/lihi-certificate96-red-bridge-project/>))
2. any incident reports, inspection reports, risk analysis/prevention reports, violations, citations and/or governmental inquiries and/or correspondence relating in any way to the "standards" as set forth above.

Please contact me if you need any additional information to comply with this request. This office agrees to pay the reasonable copy costs of obtaining the requested information.

Thank you for your courtesy and cooperation in this matter.

Very truly yours,

Bradley M. Henry
